Rose Hill Rally 100K Ride

A springtime tradition around here is the Rose Hill Rally, the first big cycling event of the year. The route presented here is the longer, 100 kilometer route of the Rally that travels over the undulating roads of the farms out to Highline Lake and back. The Rally offers well stocked rest stops, but for anyone doing this ride any of the other 364 days of the year offered here are locations where you can get food and water along the route. Enjoy!

Distance: 103 Kilometers (64 Miles)
Total Climbing: 1330 feet
Ride Difficulty: Easy, but can be tough on a windy day

Getting to the Start

Exit I-70 at 24 Road and head south about 1/4 mile to the entrance to Canyon View Park. Park anywhere...well, not anywhere, somewhere in the parking lot. Water is available over near the restrooms.

Start by heading out the south entrance of Canyon View Park and turn left on G Road. Go about 3/8 of a mile to 24 1/2 Road and turn left. From there on just follow the arrows on the map.

Happy Notes: It's free to enter Highline Lake State Park on a bicycle and water is available all year 'round. There is a vending machine with snacks in the park but chow down at your own risk.

Map, profile, riding directions, and text by John Hodge. If you have any comments, suggestions, compliments, gripes or any other ideas about how to make this map more useful let me know at deinonychi@hotmail.com
(no, I can't do anything about the wind)
